VISION

To deliver excellent service, quality healthcare, training, and actively engaged in health promotion to the general public.

MISSION

To our students and trainees:

- Provide excellent medical, nursing, and allied medical training programs.
- Offer adequate clinical exposure and/or training for a humane, comprehensive, and relevant medical, nursing, and medical education.
- Provide opportunities for continuing medical, nursing and allied medical education which include linkages with local and international institutions.
- Provide an environment conducive learning.

To our patients:

- Commit a holistic approach.
- Render compassionate care quality , yet affordable medical services.
- Provide up-to-date diagnostic and surgical facilities.
- Provide modern, patient-friendly out-patient operating room and post-anesthesia care facilities.

To our human resource:

- Recognize them as the most important resource of the organization and their role in the
